

## ***General safety instructions***

Read all instructions - especially the safety requirements - in the user manual before use.

- Keep these instructions - the safety and operating instructions should be retained for future reference. - Carefully follow all instructions.

### **→ Cleaning**

Disconnect all connected supply and signal cables before cleaning the unit. - Clean with a dry cloth. - Do not use any liquid or spray on the unit.

### **→ Usage**

Do not use the unit near water or moisture. - Do not block any ventilation openings, they are necessary for the essential airflow within the unit and protect it against overheating. - Install in accordance with the manufacturer's instructions. – Do not insert any objects through the ventilation slots of the unit, as these could get in contact with live parts or could cause short circuits. This could cause electric shock and / or fire. - Do not install near any heat sources such as radiators, stoves or other apparatus (including amplifiers) that produce heat. - Unplug this apparatus during lightning storms or when unused for long periods of time. Do not place the unit on unstable surfaces

### **→ Service**

Refer all servicing to qualified service personnel. Servicing is required when the apparatus has been damaged in any way, such as power-supply cord or plug is damaged, liquid has been spilled or objects have fallen into the apparatus, the apparatus has been exposed to rain or moisture, does not operate normally, or has been dropped. In all of the previous conditions, disconnect the main plug immediately and call your distributor or technical support!

### **→ WARNING**

**TO REDUCE THE RISK OF FIRE OR ELECTRIC SHOCK, DO NOT EXPOSE THIS PRODUCT TO RAIN OR MOISTURE**
